

ABSOLUTE INSTRUMENTATION

HOME AUTOMATION FOR THE NEW GENRATION

www.aiautomation.in

MISSION

Ai Automation is driven by the mission to enhance lives using IoT & automation. We offer integrated home automation solutions for Comfort, Security & Convenience.

Our vision is simple, to make automation an accessible reality.

It saves time, effort & cost, also reduces manual errors, consistent, high-quality outcomes smart control of lighting, climate, scene creation, scheduling, instant notifications, curtains, and more.

WHY AUTOMATION

Automation reduces time, effort and cost, also it reducing manual errors, giving you more time to focus on your primary objectives. Repetitive tasks can be completed faster.

Automating processes ensures high quality results as each task is performed identically, without human error.

In addition to keeping your family safe and giving easy control of temperature, lighting, and music, home & office automation can be used for other cool tasks.

Through home automation you can build a smart home with lighting control, mood or scene control, curtain & heavy loads control, home theater & many more.
